2. Descripción y objetivos de la materia

In this course, students will be prepared to work and to lead a variety of business and management positions by learning the business culture and practicing the related vocabulary used everyday in organizations that use American English. Students will learn business etiquette, formal vocabulary, and idioms related to such functions as: planning and leading meetings; negotiating; communicating with superiors, subordinates, and peers; discussing financial information; providing customer service; working in and leading teams; developing proposals; and communicating for the Internet.

Proper communication through written English is not only important at the academic level, but also in one's professional field. Through Business English and Writing Skills, students will learn and practice the English writing skills needed to succeed in international studies and business environments.

This course reinforces and enhances previous knowledge obtained in Technical Writing and Advanced English Composition, to prepare students for future English writing projects such as the thesis design and the thesis itself.
